

Handling System for Rack Type Unloading Dishwashing Driven Curve 90° - Counterclockwise direction

ITEM # _____

MODEL # _____

NAME # _____

SIS # _____

AIA # _____

**865246 (HSUC90CC)**Unloading curve unit, 90°,
dishwasher driven, anti-
clockwise

Main Features

- Dishwasher curve 90° is intended for installation between a dishwasher and a roller conveyor or manual sorting table (on the loading side).
- The curve is driven by the dishwasher as the feeding arm in the curve will be connected with the conveyor of the dishwasher.
- Available counterclockwise direction for unloading area.
- Loading curves provided with anti-jamming device to avoid rack jam.
- "Key holes" and "snap on" system reduces the number of screws needed for fast and easy installation.
- 45° cut corner to reduce space usage.
- Designed to transport 500x500 mm dishwashing baskets.

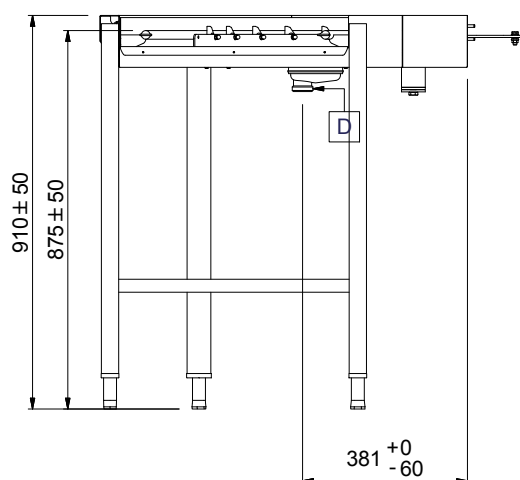

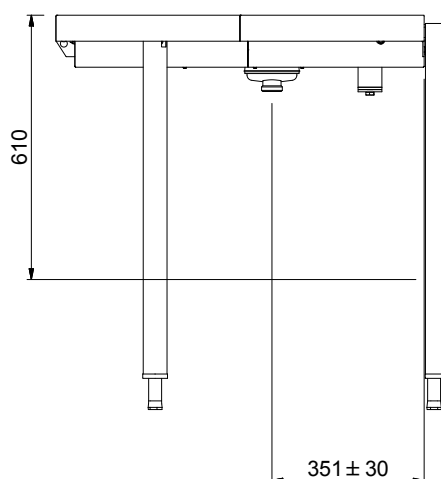

Construction

- Three legs included.
- Stainless steel feet 50 mm adjustable in height to align the operation height between the dishwasher and table.
- AISI 304 1,2mm stainless steel basin.
- 40x40mm stainless steel tubular and square legs.
- All surfaces smooth with polished finish.
- Sloping bottom of the table grants a smooth and rapid drainage.
- Thick welded flanges for sturdy connection between the units.

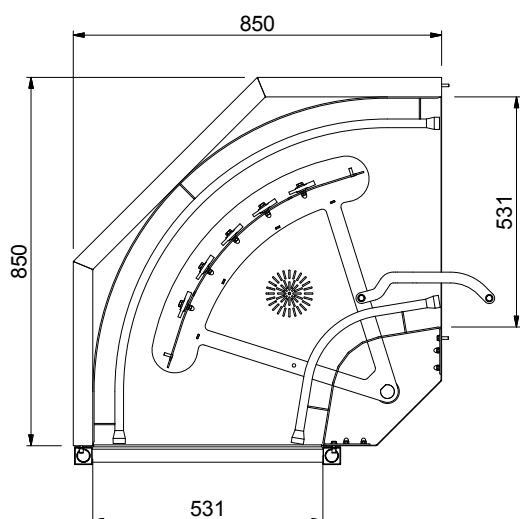

Optional Accessories

- Cover plate for 90° curve unit PNC 863237 ☐
- Emergency stop kit for Rack Type Dishwasher PNC 865162 ☐
